San Juan, Puerto Rico (December 18, 2018) – [Seaborne Airlines](http://SeaborneAirlines.com) is returning to the Dominican Republic with nonstop service between San Juan’s Luis Muñoz Marín International Airport (SJU) and Santiago de los Caballeros Dominican Republic’s Cibao International Airport (STI) starting February 14, 2019.

The initial service will operate three days per week on Mondays, Wednesdays and Fridays, and will increase to daily service May 23 – September 3, 2019.

In addition, the new service offers opportunities to experience nearby favorite vacation destinations, including the beaches of Puerto Plata, the birthplace of tourism in the Dominican Republic, and the peace, tranquility and nature of Jarabacoa, the country’s most popular eco-tourism destination.

“We are thrilled that Seaborne is returning to the Dominican market which shares historical cultural and economic ties with Puerto Rico,” said Seaborne’s Chief Operating Officer Captain Jesus Medina. “We also look forward to providing those who previously traveled this route with our airline partner JetBlue continuity of flights with Seaborne’s safe, reliable and friendly service.”

Seaborne’s everyday low fares make it easier to travel throughout the Caribbean and do not require an advance purchase. Seaborne’s last-minute fares (subject to availability) are approximately 40 percent lower than today’s existing carrier fares purchased less than seven days before departure.
